EDUCATION

University of Windsor   **Windsor, ON**
Master of Applied Computing, **Cumulative CGPA: 82.56**   *Jan 2024 - Present*

Gujarat Technological University   **Ahmedabad, India**
Bachelor of Engineering in Computer Engineering, **CGPA: 9.09/10**

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Java, C, Python, SQL
Web Technologies: HTML, CSS, Tailwind CSS, Responsive Web Design
Frameworks and Libraries: React.js, Redux, Node.js, Next.js, Express.js, NestJS, Bootstrap, MaterialUI, Flutter
Databases: MySQL, MongoDB (NoSQL), PostgreSQL
Development & Methodologies: OOP, SDLC, MVC, Agile, TDD, Design Patterns
Version Control & DevOps: Git, GitHub, Docker, CI/CD, Shell Scripting
Project Management: Jira, Postman, VS Code, IntelliJ IDEA, Eclipse
Security & APIs: Authentication (JWT, OAuth), RESTful APIs, API Integration
Core Competencies: Team Collaboration, Leadership, Problem-Solving, Communication, Time Management

WORK EXPERIENCE

Softs Solution Service   **Ahmedabad, India**
Flutter Developer Trainee   *Aug 2022 - Apr 2023*
- Architected and deployed cross-platform web and mobile applications utilizing Flutter, React.js, JavaScript, TypeScript, Tailwind CSS, Java, C, Node.js, and MySQL, **boosting user engagement by 30%**
- Oversaw sprint planning and retrospectives, **cutting cycle times by 20%** and streamlining project delivery
- Led code reviews and enforced development standards, reducing debugging time by 25% and improving scalability
- Partnered with designers to refine solutions, cutting turnaround time and enhancing client satisfaction

Softs Solution Service   **Ahmedabad, India**
Flutter Developer Intern   *Jan 2022 - Jul 2022*
- Implemented responsive UI components for a seamless cross-device experience, **increasing user retention by 15%**
- Enhanced team collaboration via Git workflows, reducing merge conflicts and accelerating issue resolution
- Optimized third-party integrations, resolving API bottlenecks to improve payment speed and reduce sync lag
- Contributed to sprint planning by refining user stories and prioritizing tasks to align with the product roadmap

PROJECTS

InsightCase | Case Management Web Application   Oct 2024 - Nov 2024
Tech - Next.js, React.js, NestJS, PostgreSQL, Microsoft Graph API, Tailwind CSS, JWT, Jira, Postman
- Created and deployed a case management system for a local business, **winning the project pitch competition** and earning recognition at the 11th CS Demo Day among 30+ teams at the University of Windsor
- Engineered secure authentication using Microsoft OAuth and JWT, implementing role-based access control and seamless integration with Microsoft 365 services including Calendar, To-Do, and Outlook
- Built a responsive Next.js dashboard with Tailwind CSS, syncing tasks and events in real-time from Microsoft services
- Developed full CRUD operations for client, case, and service management modules in NestJS and PostgreSQL, automating workflows and **cutting manual processing time by 75%**
- **Managed a 5-person Agile team**, coordinating Jira tracking, stand-ups, testing, and documentation to **achieve 90% on-time project delivery**

Trust and Track | Web and Mobile Application   Feb 2024 - Apr 2024
Tech - React.js, Flutter, Node.js, NestJS, PostgreSQL, Prisma.js, AWS RDS
- **Spearheaded a team of 7 developers** to build a logistics tracking system with real-time delivery updates, enhancing transparency and boosting customer satisfaction by converting user needs into technical solutions
- Implemented geofencing for real-time delivery updates, enhancing customer notifications and optimizing efficiency
- Crafted a dynamic UI leveraging React.js and React-Hook-Form, ensuring robust backend functionality with NestJS, PostgreSQL, and Prisma.js for secure and efficient data management
- Designed a companion Flutter app utilizing Google Maps API for real-time tracking, enabling customers to track a driver's route when nearby, elevating user engagement with location-based notifications

CERTIFICATIONS AND ESSENTIAL TRAINING

The Web Developer Bootcamp 2023 by Colt Steele, Udemy
Covered topics: JavaScript, React.js, Node.js, Express.js, MongoDB, Bootstrap, MaterialUI
Engineered and deployed full-stack web applications using REST APIs, authentication, and responsive design
